

IOWA

New course opening this Fall 2025

Particle Physics Beyond the Standard Model

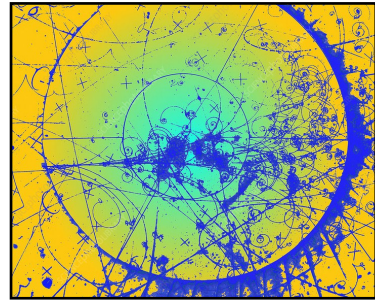

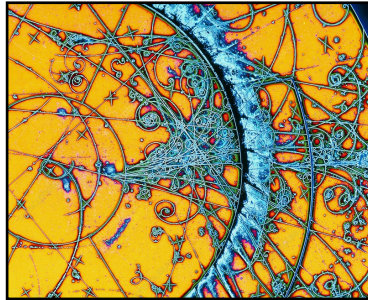

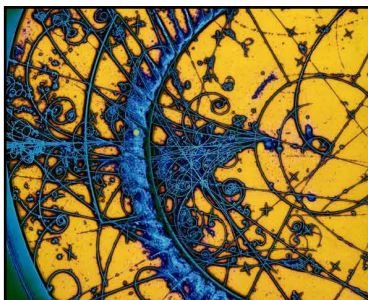

This course will expose students to current research topics in the field of particle physics, neutrinos, and dark matter.

Contents:

The basics of the Standard Model of particle physics
Neutrino masses, mixing, and oscillations
Particle dark matter production and detection
Other weakly interacting particles

Time: 11:00 AM - 12:15 PM Tue/Thur

Instructor: Prof. Matheus Hostert

Requirements:

Quantum Mechanics and Special Relativity.

No prior knowledge of Quantum Field Theory required.

Graduate and undergraduate students welcome.

Registrations open:

PHYS:5905 Special Topics in Physics (3 s.h.)
